ALGAEWHEEL WWTP INSTALLATION

VILLAGE OF NAPLES, NY

The Village of Naples, New Sanitary Sewer System and WWTP, includes installation of a 50,000 GPD Algaewheel wastewater treatment plant and a new collection system to sewer the Main Street corridor for the Village of Naples in Ontario County. Failing septic tanks had been negatively impacting the environment and economic development for many years. Algaewheel was chosen due to its ultra-low energy use, ease of operations, and aesthetically pleasing design.
